

Competency Unit / Training Program Overview

UETDRRF10B – Provide First Aid in an ESI Environment

National Competency Standards: UET12 Training Package (Release 2.1)

Competency Unit Number: UETDRRF10B (Release 2)

Competency Unit Name: Provide First Aid in an ESI Environment

Unit Descriptor

This unit covers the provision of first aid in an Electricity Supply Industry (ESI) environment. It includes the recognition and provision of an initial response where first aid is required in emergency situations, by providing essential first aid using basic life support measures according to established workplace first aid policies and procedures. Upon successful completion of the program, Participants will be deemed competent to:

- Prepare to provide first aid in an ESI environment
- Carry out the provision of first aid in an ESI environment
- Complete provision of first aid in an ESI environment

Application of the Unit

This competency standard unit shall be selected as part of an endorsed skill set for the purposes of refresher training and/or to meet regulatory and/or network requirements.

Recognition

On successful completion of this unit of competency, participants will be issued with a Statement of Attainment.

Prerequisite Units

HLTAID001 – Provide cardiopulmonary resuscitation.

Program Duration

8 Hours

Participants will be notified of the course duration and associated scheduling in advance. This will occur after the learner cohort has been reviewed to identify individuals learning requirements

Re-accreditation Timeframes: As determined by Employers WH&S Policies

Core Skills

To successfully complete this unit of competency, participants should possess the required level of core skills associated with reading, writing, and numeracy. The following are examples of core skills required for this unit.

Reading: Read and interpret manufacturer's specifications, work and maintenance plans, and Material Safety Data Sheets (MSDSs)

Writing: Record information accurately and legibly

Numeracy: Use numeracy skills to estimate, calculate and record routine workplace measures.

Wherever possible, our Program Facilitators will make reasonable adjustments for participants that require core skills assistance. InterLink Training can also confidentially provide written information on where support can be obtained to assist with core skills development.

Mode of Delivery

- Face to Face or Small Group (Workshop Session)

Competency Assessment

Participants will be required to successfully complete written and practical assessments to demonstrate they are competent in the application of this unit of competency.

Recognition of Prior Learning (RPL)

InterLink Training offers Recognition of Prior Learning (RPL) if an individual believes they can demonstrate they already hold the underpinning knowledge and skills contained in the unit of competency.

Personal Protection Equipment (PPE) Required

No PPE is required whilst attending this program.

Training Resources

InterLink Training provides the relevant training resources required to demonstrate competency. Should you prefer to use your own training resources during the course, such as your own Chainsaw, raise this issue with your Facilitator at the commencement of the Program. The relevant safety checks will need to be undertaken prior to approval being given to use your equipment throughout the program.

Licensing / Regulatory Information

The skills and knowledge described in this unit may require a licence/registration to practice in the workplace subject to regulations for undertaking of electrical work.

Practice in workplace and during training is also subject to regulations directly related to Occupational Health and Safety, electricity/telecommunications/gas/water industry safety and compliance, environmental protection, and anti-discrimination training.

Commonwealth, State/Territory or Local Government legislation and regulations may exist that limits the age of operating certain equipment.

ESI employees are required to maintain currency in this Unit for authorisation/approval to work on ESI Networks.

Government Financial Support and Funding Subsidies

Government financial support and training subsidies are not available for this stand-alone unit of competency.

InterLink Training is not a VET FEE-HELP approved training provider

Special Access Needs

Please advise our Regional Coordinators when making a booking if you have any special needs in relation to access within our training facilities.

Disclaimer

Attendance at this program does not guarantee:

- A learner will successfully complete the training program:
- The training program can be successfully completed if it is undertaken in a manner that does not comply with the Standards for Registered Training Organisations (RTO's) 2015; *and*
- A learner will obtain a particular employment outcome where this is outside the control of InterLink Training
