

VESI SAFE APPROACH DISTANCES

UNIT OVERVIEW

National Competency Standards: Victorian Electrical Safety Industry

This module provides the learner with the knowledge and skills to maintain safe approach distance (SAD) to Extra High Voltage (EHV), high voltage (HV) and low voltage (LV) electrical apparatus

Prerequisite: Nil
Course Duration: 4 Hours
Class Size: 6-15, individual and group bookings available
Expiry: 1 year - Refresher training available on request.

Equipment required:

Learning will be conducted initially in an instruction room with access to all necessary training aids.

LEARNING OUTCOME

Upon completion of this unit, the Student will have gained:

- Identify the SAD for persons working on or near EHV, HV and LV electrical apparatus and the safe use of vehicles or mobile plant
- Identify the requirements for SAD special

ASSESSMENT

Assessment will consist of the following:

- A written assessment

The Student is expected to actively participate in the activities throughout the training and answer ALL questions correctly in each section.
